## A

- Abdominoperineal resection, following anterior resection, 378  
Abdominoperineal resection, in rectal carcinoma, 953  
ACTH-producing tumor, 1645  
ACTH production, associated with cervical carcinoma, small cell nonkeratinizing, 1629  
Adenocarcinoma  
    diffuse cystic, glandular malformation of stomach associated with, 915  
    prostatic, apparently localized, operative staging of, 73  
    thyroid gland, mucinous primary, 1323  
Adenoid cystic carcinoma, lymph node involvement by direct extension in, 2017  
Adenoid cystic carcinoma cells, of salivary gland, morphologic and biologic characteristics of, 2349  
Adenoma  
    parathyroid, and thyroid carcinoma, non-medullary, 1391  
pituitary, human growth-hormone-producing, identification of by immunohistochemical and morphologic methods, 1163  
    renal proximal tubular, with so-called oncocytic features, 906  
    salivary gland, monomorphic, trabecular-tubular, canalicular, and basaloid, 193  
Adenosine triphosphatase, distribution in infiltrating ductal carcinoma and nonneoplastic breast, 875  
Adenosis  
    stilbestrol-adenosis-carcinoma syndrome, 426  
    sclerosing, mammary, and tubular carcinoma, comparative ultrastructure of, 180  
Adrenocorticotrophic hormone, see ACTH  
Alkaline phosphatase, Regan isoenzyme of, direct immunoperoxidase staining for in human tumor tissues, 1237  
Alkaloids  
    vincristine, in bronchogenic carcinoma, 2208  
    vincristine, in bronchogenic carcinoma, with methyl-CCNU and methotrexate, 1077  
    vincristine, in cervical carcinoma, squamous cell advanced, with mitomycin-C and bleomycin, 2222  
    vincristine, in colonic cancer, 1468  
    vincristine, in leukemia, lymphocytic adult acute, 672  
    vincristine, in melanoma, malignant, with cyclophosphamide and procarbazine, 1922  
    vincristine, in sarcoma, Ewing's, with dactinomycin and cyclophosphamide, 1925

## Alkylating agents

- aniline mustard, in advanced cancer, 1887  
cyclophosphamide, and interstitial pulmonary fibrosis, 1542  
cyclophosphamide, in bronchogenic carcinoma, 2208  
cyclophosphamide, in melanoma, malignant, with vincristine and procarbazine, 1922  
cyclophosphamide, in neuroblastoma, localized and regional, 655  
cyclophosphamide, in sarcoma, Ewing's, with dactinomycin and vincristine, 1925  
cyclophosphamide, with pelvic irradiation, causing urinary bladder toxicity, 701  
L-phenylalanine mustard, in mammary carcinoma, metastatic, compared with combination chemotherapy, 1882  
nitrogen mustard, and splenectomy, effect on mouse bone marrow colony formation in vitro, 1266  
Thio-TEPA (N,N,N'-triethylenethiophosphoramide) intrathecal, in malignant meningeal disease, Phase I-II study, 1471  
Alpha- $\lceil$ -antitrypsin, serum, in lung cancer patients, and abnormal sputum cytology, 1655  
Alpha chain disease, and primary intestinal lymphoma and massive plasma cell infiltration, 2511  
Amino acid excretion, urinary, in acute leukemia, 219  
Amino acids, plasma, in carcinoid syndrome patients, 2127  
Amylase-producing tumor, 1645  
Amyloidosis, and nodular malignant lymphoma, 2192  
Anaphylaxis, caused by asparaginase derived from *E. coli* and *Erwinia* cultures, 1843  
Angitis, granulomatous, of central nervous system, and Hodgkin's disease, 2027  
Angiogenesis, tumor, induced by implants of melanoma, in hamster cheek pouch, 187  
Angiointerstitial lymphadenopathy, 1587  
Angiomatosis retinae, ultrastructural study and lipid analysis of, 2042  
Antibiotics, oral prophylactic broad spectrum non-absorbable, effect on gastrointestinal absorption of nutrients and methotrexate in small cell bronchogenic carcinoma patients, 1556  
Antibiotics, antitumor  
    adriamycin, combination chemotherapy in malignant lymphoma, 1484  
    adriamycin, in brain gliomas and metastases, with VM 26 and CCNU, 1909

- adriamycin, in mammary cancer, advanced, 13  
 adriamycin, in neoplastic diseases, with *cis*-diamine-dichloroplatinum, 21  
 adriamycin, liver damage in patients treated with, 1524  
 adriamycin, skin ulcers due to, 1083  
 amphotericin B, in advanced cancer treatment, with BCNU, 1917  
 bleomycin, in cervical carcinoma, squamous cell advanced, with vincristine and mitomycin-C, 2222  
 bleomycin, in fat emulsion, for local administration, 1507  
 bleomycin, intracavitary, for malignant effusions, 1903  
 bleomycin, intravenous infusion, as potential synchronizing agent in human disseminated malignancies, 1503  
 bleomycin, phase II evaluation of, 8  
 dactinomycin, in sarcoma, Ewing's, with cyclophosphamide and vincristine, 1925  
 dactinomycin, in Wilms' tumor, single vs. multiple courses of, 647  
 mitomycin-C, in cervical carcinoma, squamous cell advanced, with vincristine and bleomycin 2222  
 streptozotocin, in pancreatic islet cell carcinoma, with hypercalcemia and hypergastrinemia, 2217  
 streptozotocin, nephrotoxic and cytoproliferative effects of, 1550  
 Antiestrogen, Nafoxidine, in mammary cancer, 1535  
 Antimetabolites  
 cytosine arabinoside, effect on platelet aggregation, 2247  
 fluorouracil, in colonic cancer, 1468  
 5-fluorouracil, in gastrointestinal cancer, advanced, bolus weekly 5-FU vs. methyl CCNU plus bolus weekly 5-FU, phase III comparison of treatment, 1  
 5-fluorouracil, topical, in erythroplasia of Queyrat, 1498  
 6-mercaptopurine, liver damage in patients treated with, 1524  
 methotrexate, gastrointestinal absorption of, in small cell bronchogenic carcinoma patients, effect of oral prophylactic antibiotics on, 1556  
 methotrexate, in bronchogenic carcinoma, 2208  
 methotrexate, in bronchogenic carcinoma, advanced, with vincristine and methyl-CCNU, 1077  
 methotrexate, in central nervous system lymphoma, multicentric mixed, 1476  
 methotrexate, in childhood lymphosarcoma and reticulum cell sarcoma, with citrovorum factor rescue, prolonged unmaintained remissions, 1043  
 methotrexate, intrathecal, pneumonitis induced by, 1529  
 Asparaginase, derived from *E. coli* and *Erwinia* cultures, anaphylactic reactions to, 1843  
 Assay, protamine sulfate, for androgen and estrogen receptors in breast cancer, 868  
 Athletics, college, body size, and cancer mortality, 382  
 5-Azacytidine, in leukemia, acute adult non-lymphocytic, previously treated, 36
- B**
- Baker's Antifol, phase I studies with, 690  
 BCNU, see Nitrosoureas, 1,3,bis(2-chlorethyl)-1-nitrosourea  
 $\beta$ -Glucuronidase activity, tumor cell, cytochemical assessment of, compared with therapeutic response of advanced cancer patients to aniline mustard, 1887  
 $\beta$ -melanocyte-stimulating hormone, 1645  
 Bile acids, fecal, in familial polyposis patients, 1694  
 Biliary cystademonia and cystadenocarcinoma, 2491  
 Biopsy  
 bone marrow, in detection of marrow involvement in nonhematologic malignancies, 2401  
 diagnostic scalene node, in preoperative evaluation of surgical cancer patient, 948  
 drill, in breast tumor diagnosis, 2567  
 Bladder (urinary)  
 carcinoma of, transitional cell, in "collision" with adenocarcinoma of the colon to produce a vesico-colic fistula, 335  
 neoplasm of, immune evaluation with skin testing in patients with, 149  
 toxicity, following pelvic irradiation and simultaneous cyclophosphamide therapy, 701  
 Blastic phase of agnogenic myeloid metaplasia simulating malignant lymphoma, 1297  
 Blastoma, pulmonary, 789  
 Blastomatous tumors of respiratory tract, 818  
 Blood donors, preleukemic and prelymphomatous, morbidity and mortality among recipients of blood from, 324  
 Blood, platelet aggregation, effect of cytosine arabinoside on, 2247  
 Body size, college athletics, and cancer mortality, 382  
 Bone metastases, from breast cancer, detected by bone scan at radical mastectomy, 107  
 Bone scanning, detection of bone metastases from breast cancer at the time of radical mastectomy, 107  
 Bone scanning, in lymphoma, 1142  
 Bone marrow  
 cancer of, erythrokinetics and androgens in, 833  
 involvement of, in nonhematologic malignancies, detection by bone marrow aspiration and biopsy, 2401  
 mouse, colony formation in vitro, effect of splenectomy and nitrogen mustard on, 1266  
 Bone marrow aspiration and biopsy, in detection of marrow involvement in nonhematologic malignancies, 2401  
 Bone marrow biopsy sites, in lymphoma patients, 111-indium scintigraphy in selection of, 1560  
 Bone marrow manifestations of Hodgkin's disease, 1717  
 Bone marrow remission, in childhood acute lymphocytic leukemia, testicular relapse during, 2604

- Brain  
glioma of, malignant, combination chemotherapy of, with adriamycin, VM 26, and CCNU, 1909  
metastasis to, combination chemotherapy of, with adriamycin, VM 26, and CCNU, 1909  
metastasis to, from choriocarcinoma, normal pregnancy and delivery after, 984  
metastasis to, from prostatic carcinoma, 2583  
tumors of, neuronal anaplastic, 1424
- Brain scanning in recurrent breast cancer patients, 1574
- Breast  
adenosis of, sclerosing, and tubular carcinoma of, comparative ultrastructure of, 180  
cancer of, advanced, combination chemotherapy and adriamycin in, 13  
cancer of, advanced, megestrol acetate in, clinical studies, 53  
cancer of, androgen and estrogen receptors in, demonstrated by a new protamine sulfate assay, 868  
cancer of, bilateral, with vulvar (supernumerary breast) carcinoma, 2570  
cancer of, bone metastases from, detected by bone scan at radical mastectomy, 107  
cancer of, glycolytic enzyme activities in patients with, and the response to chemotherapy, 695  
cancer of, estrogen therapy for, rebound response after, 1834  
cancer of, hydroxyproline excretion in patients with, early morning, 2564  
cancer of, immunocompetence and immunosuppression in, 1171  
cancer of, influence of growth rate on prognosis and treatment evaluation, 1826  
cancer of, locally advanced, teletherapy and iridium implantation in, 1936  
cancer of, lymph nodes draining various stages of, sinus histiocytic reaction in, 807  
cancer of, mammography in screening, 1124  
cancer of, Nafoxidine in treatment of, 1535  
cancer of, recurrent, brain scanning in patients with, 1574  
carcinoma of, bilateral, role of mammography in, 931  
carcinoma of, human, rat, and mouse, in vitro, DNA synthesis of, influence of insulin and prolactin on, 1272  
carcinoma of, infiltrating ductal, adenosine triphosphatase distribution in, 875  
carcinoma of, metastatic, combination chemotherapy for, and L-phenylalanine mustard, 1882  
carcinoma of, operable primary, 10-year result of treatment of, 1001  
carcinoma of, rat, dimethylbenzanthracene-induced, therapy of by selective inhibition of steroidogenesis, 56  
carcinoma of, tubular, and sclerosing adenosis of, comparative ultrastructure of, 180  
mammography, microdose, 1947  
nonneoplastic, adenosine triphosphatase distribution in, 875
- thermograms of, criteria for obtaining and interpreting, 1931  
tumor of, drill biopsy in diagnosis of, 2567
- Breast examination programs, periodic, prospective evaluation of, 265
- Brenner tumor of uterus, 1741
- Bronchus  
main stem, cancer of, curative surgery in, 1013  
tumor of, acinic cell, 830
- Burkitt's lymphoma, see Lymphoma, Burkitt's
- Busulfan toxicity, in polycythemia vera, erythroleukemia-like syndrome due to, 2242
- C**
- Calcitonin, immunoassay for, 2111
- Calcium isotopes, in study of calcium metabolism in cancer, 2111
- Calcium metabolism in cancer, studies with calcium isotopes and immunoassays for parathyroid hormone and calcitonin, 2111
- Cancer  
advanced, aniline mustard therapy in, 1887  
advanced, CCNU in, Phase II study with long-term followup, 1069  
advanced, combination chemotherapy of, with Amphotericin B plus BCNU, 1917  
advanced, measuring error effect on results of therapeutic trials in, 388  
associated with familial Hodgkin's disease, 2033  
bone marrow, erythrokinetics and androgens in, 833  
bronchial main stem, curative surgery in, 1013  
cervical, control of, morbidity and mortality trends, 1357  
chromosomes and causation of, 748, 762, 770  
colonic, fluorouracil-methyl CCNU and vincristine in treatment of, 1468  
colorectal, recurrent, serial CEA assays in post-operative detection of, 2310  
effect on conversion of  $^{14}\text{C}$  tripalmitin to  $^{14}\text{CO}_2$ , 1259  
endometrial, screening techniques in, 436  
estrogen-cancer hypothesis, 526  
gastric, advanced, chemotherapy in, sequential and combination, 678  
gastric, cell-mediated immune status of patients with, preoperative, 2343  
gastrointestinal, advanced, chemotherapy in, bolus weekly 5-Fu vs. Methyl-CCNU plus bolus weekly 5-Fu, phase III comparison of treatment, 1  
genital (female), lower tract, and viruses, 526  
gynecologic, and hormones, 503  
gynecologic, chorionic gonadotropin in, 441  
gynecologic, colposcopy in, 432  
gynecologic, pelvic exenteration therapy for, 581  
gynecologic, pretreatment staging of, 458  
gynecologic, "the end of the beginning," 409  
gynecologic, treatment protocols in, 509  
head and neck, chemotherapy of, combination regional, 1479

- large intestinal, chemotherapy of, adjuvant to surgical treatment, 1461  
laryngeal, environmental factors in, 1591  
laryngeal, modes of invasion of, 346  
mammary, advanced, combination chemotherapy and adriamycin in, 13  
mammary, advanced, megestrol acetate in, clinical studies, 53  
mammary, androgen and estrogen receptors in, demonstrated by a new protamine sulfate assay, 868  
mammary, bilateral, with vulvar (supernumerary breast) carcinoma, 2570  
mammary, bone metastases from, detected by bone scan at radical mastectomy, 107  
mammary, glycolytic enzyme activities in patients with and the response to chemotherapy, 695  
mammary, hydroxyproline excretion in patients with, early morning, 2564  
mammary, immunocompetence and immunosuppression in, 1171  
mammary, influence of growth rate on prognosis and treatment evaluation, 1826  
mammary, locally advanced, teletherapy and iridium implantation in, 1936  
mammary, lymph nodes draining various stages of, sinus histiocytic reaction in, 807  
mammary, mammography in screening, 1124  
mammary, metastatic, estrogen therapy for, rebound response after, 1834  
mammary, Nafoxidine in treatment of, 1535  
mammary, recurrent, brain scanning in patients with, 1574  
nonhematologic, bone marrow aspiration and biopsy in detection of marrow involvement in, 2401  
oral, dental management of patients irradiated for, 994  
ovarian, treatment of, current status of, 610  
prostatic, response of plasma fibrinogen and plasminogen to hormone treatment and relation of pretreatment values to mortality in patients with, 1108  
prostatic, response of serum cholesterol and triglycerides to hormone treatment and the relation of pretreatment values to mortality of patients with, 1095  
pulmonary, advanced, combination chemotherapy in, 2201  
pulmonary, advanced, combination chemotherapy in, with increased survival, 2232  
pulmonary, mortality, excess and deficit, in three ethnic groups in Texas, 2551  
pulmonary, serodiagnosis of, 157  
pulmonary, serum alpha-1-antitrypsin in patients with, 1655  
screening for, population, 1367  
uterine corpus, evolution of modern treatment of, 603  
vulvar, epidermoid, current status of treatment of, 587  
Cancer-associated antigens, simultaneous assays of, in various neoplastic disorders, 2287  
Cancer-associated hyperamylasemia, unusual isoamylase in, 2121  
Cancer mortality, and college athletics and body size, 382  
Cancer patients  
calcium metabolism in, 2111  
*Corynebacterium parvum* administration to, phase I study, 119  
cured, psychological response of, 2184  
enzymes in peripheral and bone marrow serum in, 1336  
immunocompetent cells in, 2274  
liver scan in preoperative screening of, 1137  
urinary polyamine levels in (with localized malignancy), 1344  
with progressing tumors, serum complement level increases in, 1608  
xerostomia in, radiation-induced, effect on salivary and serum electrolytes, 273  
Cancer therapy trial, effects of measuring error on results of, 388  
Carbohydrates, metabolism, storage, and release of, in normal and abnormal endometria, effect of enzymes on, 487  
Carcinoid  
cervical, 2328  
hypalbuminemia associated with, pathophysiology of, 854  
in renal cystic teratoma, 1636  
pulmonary, in tissue and organ culture, 2006  
Carcinoid syndrome, plasma amino acids in patients with, 2127  
Carcinoma  
adenoid cystic, lymph node involvement by direct extension in, 2017  
bronchogenic, advanced, methyl-CCNU in, alone and in combination with vincristine or vincristine and methotrexate, 1077  
bronchogenic, combination chemotherapy of, simultaneous or sequential, 2208  
bronchogenic, small cell, gastrointestinal absorption of nutrients and methotrexate by patients with, effect of oral prophylactic antibiotics on, 1556  
cell-mediated immunity in patients with, 1149  
cervical, in situ, long-term course of, 957  
cervical, microinvasive, long-term followup of, 629  
cervical, microinvasive, Stage IA, diagnosis and management of, 414  
cervical, small cell nonkeratinizing, associated with ACTH production, 1629  
cervical, squamous cell advanced, combination chemotherapy with mitomycin-C vincristine, and bleomycin, 2222  
cervical, treatment of, with adjunctive surgery and radiation therapy, 596  
conjunctival, mucoepidermoid, 1699  
corneal and conjunctival, squamous cell pigmented, 778

- cutaneous, verrucous, epithelioma cuniculatum  
plantare, 1710
- disseminated, intravenous bleomycin infusion as potential synchronizing agent in, 1503
- endometrial, plasma estrogen in patients with, 2101
- endometrial, Stage III, management of, 1838
- esophageal, preoperative radiation therapy for, 84
- gastric, childhood, 1781
- gastric, with lymphoid stroma, morphologic characteristics and prognostic correlations, 232
- hepatic cell primary, in presence or absence of Hepatitis B antigen, 901
- immunocompetence in patients with, correlated with clinical stage, 1149
- islet cell multiple hormone-secreting, streptozotocin therapy in, nephrotoxic and cytoproliferative effects of, 1550
- mammary, bilateral, role of mammography in, 931
- mammary, human, rat, and mouse, in vitro, DNA synthesis of, influence of insulin and prolactin, 1272
- mammary, infiltrating ductal, adenosine triphosphatase distribution in, 875
- mammary, metastatic, combination chemotherapy for, and L-phenylalanine mustard, 1882
- mammary, operable primary, 10-year results of treatment of, 1001
- mammary, rat, dimethylbenzanthracene-induced, therapy of by selective inhibition of steroidogenesis, 56
- mammary, tubular, and sclerosing adenosis, comparative ultrastructure of, 180
- metastatic to eye and orbit, 1326
- nasal cavity, squamous cell, 2503
- nasal vestibule, radiation therapy of, 100
- ovarian, embryonal, resembling embryonal carcinoma of adult testis, 2420
- ovarian, second-look operation in, post-chemotherapy, 1438
- pancreatic islet cell, with hypercalcemia and hypergastrinemia, response to streptozotocin, 2217
- paranasal sinus, squamous cell, 2503
- prostatic, aspiration cytology correlated with needle biopsy histology in, 2078
- prostatic, brain metastasis from, 2583
- pulmonary, immune response at tumor site in, 2296
- pulmonary, primary, pulmonary tumor emboli and cor pulmonale in, 2105
- pulmonary, small cell, management of, 1394
- pulmonary, small cell, multiple-hormone-producing, 2575
- rectal, abdominoperineal resection in, 953
- renal cell, lymphocyte toxicity, nonspecific, in patients with, 1962
- renal cell, papillary, 2469
- salivary gland, adenoid cystic cells, morphologic and biologic characteristics of, 2349
- squamous cell, of hepatic cyst origin, 2002
- stilbestrol-adenosis-carcinoma syndrome, 426
- testicular, embryonal cell, alpha-fetoprotein radioimmunoassay in patients with, surgically treated, prognostic value of, 1658
- thyroid medullary, diagnostic problems in, 366
- thyroid, nonmedullary, and parathyroid adenoma, 1391
- urinary tract (upper), transitional cell, recurrent urothelial tumors following surgery for, 2178
- vulvar, supernumerary breast, with bilateral mammary cancer, 2570
- Carcinosarcoma, Fallopian tube, 1687

- Cervix (uterine)  
abnormal, cryosurgery in, 546
- cancer of, control of, morbidity and mortality trends, 1357
- carcinoïd of, 2328
- carcinoma of, in situ, long-term course of, 957
- carcinoma of, microinvasive, long-term followup of, 629
- carcinoma of, microinvasive, Stage IA, diagnosis and management of, 414
- carcinoma of, squamous cell advanced, combination chemotherapy of with mitomycin-C, vincristine, and bleomycin, 2222
- carcinoma of, small cell nonkeratinizing, associated with ACTH production, 1629
- carcinoma of, treatment of, with adjunctive surgery and radiation therapy, 596
- Chemotherapy  
chemoimmunotherapy in leukemia, myeloblastic acute, 1581
- combination, in advanced cancer, with Amphotericin B and BCNU, 1909
- combination, in brain gliomas and metastases, with adriamycin, VM 26 and CCNU, 1909
- combination, in bronchogenic carcinoma, simultaneous or sequential, 2208
- combination, in cervical cancer, squamous cell advanced, with mitomycin-C, vincristine, and bleomycin, 2222
- combination, in colonic cancer, 1468
- combination, in gastric cancer, advanced, 678
- combination, in head and neck cancer, regional, 1479
- combination, in histiocytosis, malignant, 1083
- combination, in Hodgkin's disease, advanced, B-DOPA, 667
- combination, in Hodgkin's disease, advanced, with cyclophosphamide, vinblastine, procarbazine,

- and prednisone, 42  
 combination, in Hodgkin's disease, childhood, 1494  
 combination, in leukemia, lymphocytic adult acute, 672  
 combination, in lymphoma, lymphocytic poorly differentiated nodular, COP vs. MOPP, 1896  
 combination, in lymphoma, malignant, 1052  
 combination, in lymphoma, malignant, adriamycin, 1484  
 combination, in mammary cancer, advanced, 13  
 combination, in mammary carcinoma, metastatic, compared with L-phenylalanine mustard, 1882  
 combination, in neuroblastoma, childhood disseminated, 2250  
 combination, in pulmonary cancer, advanced, randomized trial, 2201  
 combination, in pulmonary cancer, advanced, with increased survival, 2232  
 combination, in sarcoma, Ewing's, and radiation therapy, 1925  
 combination, with adriamycin and *cis*-diamminedichloroplatinum, 21  
 in disseminated tumor, successful, plasma sialyltransferase alterations associated with, 2132  
 in dog spleen, 62  
 in gastric cancer, advanced, sequential, 678  
 in gastrointestinal cancer, advanced, bolus weekly 5-FU vs. Methyl CCNU plus 5-FU, phase III comparison of treatment, 1  
 in hemangiosarcoma, hepatic and splenic, intraportal infusion, 1386  
 in large intestinal cancer, adjuvant to surgical treatment, 1461  
 in lymphoma, lymphocytic, intensive versus moderate, 1060  
 in mammary cancer, response related to glycolytic enzyme activities, 695  
 in melanoma, malignant, with cyclophosphamide, vincristine, and procarbazine, 1922  
 in osteoarthropathy, pulmonary, in Hodgkin's disease, 1729  
 in thymoma, invasive, 49  
 photochemotherapy of mycosis fungoides with oral methoxsalen, 683  
 Chemotherapy-related pancreatic enlargement, in children, early detection of with abdominal sonography, 1515  
 Chest wall, sarcoma of, unusual postirradiation, 2269  
 Childhood  
   Cushing's disease in, with lymphosarcoma and acute leukemia, 1017  
   gastric carcinoma in, 1781  
   granulocyte transfusions in, using filter-collected cells, 1402  
   Hodgkin's disease in, chemotherapy of, combination, 1494  
   Hodgkin's disease in, repeat lymphography in, 90  
   infantile fibrosarcoma in, 729  
   leukemia in, lymphocytic acute, testicular relapse in, during bone marrow remission, 2604  
   leukemic ophthalmopathy in, 1744  
 lymphoma in, non-Hodgkin's, methotrexate and citrovorum factor rescue in, 1043  
 lymphosarcoma in, methotrexate and citrovorum factor rescue in, 1043  
 neuroblastoma in, disseminated, total body sequential segmental irradiation and combination chemotherapy in, 2250  
 neuroblastoma in, nonmetastatic, factors influencing survival, 661  
 pancreatic enlargement in, chemotherapy-related, early detection with abdominal sonography, 1515  
 rhabdomyosarcoma in, perianal, 1008  
 sarcoma in, reticulum cell methotrexate and citrovorum factor rescue in, 1043  
 tumor imaging in, 921
